Principal's Report

What an interesting start to Term Two we've had! A fantastic first day welcoming our new family was followed by several days of Covid confusion. Luckily Ms Hodge could swing into action for us on Monday and Tuesday this week. We're very grateful for her and Pauline's flexibility.

We've already more than made up for several staff absences with new and exciting projects underway and some really pleasing testing.

We have a lot to look forward to this term: we have AFL clinics for the next two Fridays in a row, Wear Orange Wednesday to show our support for SES in Week 4 and the long-awaited return to our Music programme with Lauriston Howqua later in the term. We are embarking on our Social Enterprise project and will be collaborating with other schools for debating.

Of course, everyone is talking about trivia next week! You might notice posters pop up around town. Please talk to Fletch and Sally or Wayne to purchase your tickets and establish your teams (max of 8 per table). We look forward to a spookily fun fundraising (and hair-raising) evening on Friday, 13th from 7 pm!

Hannah Madin

SWPBS FOCUS WEEKS

Each week, we are on the lookout for focus values. These earn double tokens! This week, Mr Wilson has been focusing on confidence. He is particularly looking for students who are confident to share their ideas and work, who are brave enough to correct the teacher or peers (respectfully) and who can stand up for their beliefs. Needless to say, the confidence tokens have been flowing fast and free this week!

WELCOME HENDRIX (LAST TERM) AND MINNIE, CLEM AND STIRLING (THIS TERM)!

Any regular School would have new kids daily, right? Well J.P.S has new kids every year, and THREE new ones that came this year/term.

Eldest: Minnie, Year 6.

Middle: Clementine/Clem, Year 3.

Youngest: Stirling, Prep.

And their wonderful parents, Kristy and Greg.

The Inaugural Minister for Environment, the Hon. Stirling

In the middle of last term we also had Hendrix join the school and his parents, Katie and Vaughn.

The school only has 11 children currently so it's pretty small.

Let us know if you want/want your kids to join Jamieson Primary School and add to the little number of kids.

Ivy

A NOTE ON NAPLAN

Next week the Grades 3 and 5 will be sitting four tests of their knowledge and understanding of the age-appropriate content of the Victorian Curriculum.

While we do not make a big song and dance of NAPLAN at JPS, we do encourage everyone to try their best.

The best way to prepare for NAPLAN is to make sure students have enough sleep to rest their brains and help them regenerate, enough exercise to pump oxygen through the bloodstream and enough healthy food to stimulate the brain. Please make sure your Grade 3 or 5 children have a healthy breakfast on the morning of each test!

ANZAC DAY

On Anzac Day first was the dawn service then later on the march then Jamieson Primary School kids sang a song called silent night at the Hall.

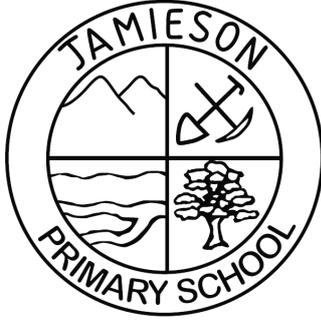

After that most parents went to the Court House for one or two drinks well the kids played tiggy most people had fun.

Thank you to Ms B for coming in to teach us about singing and ANZAC Day each week and thank you to Fletch and Sally for the icecreams after our performance!

The end

We are learning about:

ENGLISH

We are learning about the persuasive power of advertising. Over the term, we will be unpacking various persuasive tricks that advertisers use to make us buy products. We will then use these to our advantage when we integrate our English learning with Social Enterprise and begin marketing a product to raise money for a charity. We are also undertaking weekly debates.

How you can help:

When viewing or listening to ads, ask your children whether the it is convincing and why. Soon enough you'll get to know all about hyperbole, direct appeal, pathos, logos and ethos!

Continue to encourage your children to read each night, or read with them. Ask questions about the books they are reading.

P-2: 20 minutes per night

3-6: half an hour per night

If your child has brought home sight words, please practise these each night. We can easily supply a second set to play games such as Memory or Snap—just send us a message and we'll laminate them. Please make sure the student says each word out loud each time!

Clem is looking forward to the day that genetic modification brings us Giraffe-man and Cockroach-man...

MATHS

We are learning all about arrays and multiplication strategies then applying this knowledge to working out real life problems about perimeter, area and volume.

How you can help:

As the students learn a new strategy, practise using it to multiply single or double (or even triple) digit numbers. Next week we are focusing on:

P: doubling (2x)

2-3: doubling and one more group (3x) double-doubling (4x)

4-6: relate to tens (5x and 9x) and working out strategies to suit each student for 6x, 7x and 8x

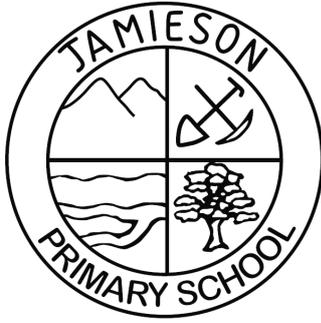

Thanks, Hendrix, Beau and Stirling for this magnificent array of acorns. It sure is easy to count them quickly when they're laid out like this!

MUSIC

Once again we are excited to welcome the Lauriston Howqua students and Maria Lieberth back on campus in the second half of term for an intensive music programme. Stay tuned for details about our upcoming music concert—this will be in the final week of term with date and time to be confirmed soon.

SCIENCE

We are exploring physics and the scientific method. By observing the world around us, we can make hypotheses and test these in order to find out why things move and how much different forces play a part in our everyday lives.
