Principal's Report

The end of the year is creeping closer and closer! This is our longest term of the year but it's already feeling very short. We have five and a half weeks until the class party. Five and a half weeks! That's nothing!

As the weather gets warmer (if it ever stops raining, that is), we need to remind each other to stay hydrated and keep sun-safe. The Bureau of Meteorology advises that even cloudy days can have a high UV rating so we need to keep hats on and wear collared shirts to reduce our risk of burning.

And as the term wears on and we keep up our hectic program of horse riding (not me! *achoo*), swimming, projects, excursions, jobs and playtime, everyone is sure to get tired. Please remind kids they need 8-10 hours of sleep each night to learn effectively at school.

We have started work on our End of Year Concert production and look set to bring you a fabulous program of talent. Please note the date and time—Monday, 19 Dec at 5pm. This year we have no Covid restrictions so do invite your family and friends.

Log Cabin camp

Hi before i get started i will do a little bit of a blurb

A courage full group of 3-4 face 5 days 30 mins out of sovereign hill going to sovereign hill every day in ballarat.

Hi Alannah speaking I was enjoying a normal day until bam! I was told we were going to camp on Sunday. I got ready as quickly as I could so I didn't have to do it late anyways to camp now.

As I made it to the mubl shelter I was filled with excitement and I knew I was going to have fun. I also sat next to minnie in the front.

As we arrived at camp all the girls were in one cabin, the boys had three separate cabins. On the first day we got there we set up our beds, we played outside and we had dinner.

At bed time Clem and I couldn't sleep and we were up till 3 in the morning. every one had fun. on the last night harry and stephen went on a sugar high it was funny. thank you i hope you liked my article by Alannah.

THE END.

A New Student To J.P.S!

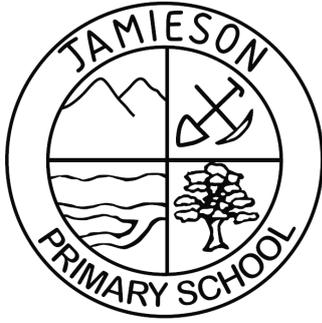

This term a new student has been coming in to do orientation for a couple hours every few weeks! Can you guess who it is? It is.... Belle ! When she comes, we will play fun games and do fun activities!! This is so Belle can settle into her new school and get used to it. No matter what session she is doing she is always curious to learn new things and always does them with a smile on her face. Everybody can't wait to have Belle come full time next year!! This is Minnie signing off.

Swimming

Every single day (except Tuesdays) during week 9 and 10 we are going swimming in the caravan park pool.

When we go swimming we will do freestyle, dolphin, whale, butterfly, water safety, breast stroke, sidestroke, survival backstroke, breast stroke and back stroke.

JAMIESON PRIMARY'S NEW SCIENCE TOPIC!

JAMIESON PRIMARY'S NEW SCIENCE TOPIC ALL STARTED WITH MAKING SUNDIALS. AND THEN THEY STARTED MEASURING THE DISTANCE BETWEEN THE SUN, MOON, AND EARTH AND LOOKING AT THE AXIS OF THE EARTH AND THE ORBITS. AND THEN WE WENT AND HAD A DEBATE ON WHETHER WE SHOULD LEAVE EARTH OR NOT. RECENTLY WE HAD A PRESENTATION ON OUR SPEECHES AND WE ARE FINISHING THE ADS TODAY (2/11/22)

CHARLIE, ALANNAH, AND CLEM ARE MAKING ADS, AND IVY, STEPHEN, HARRY, AND MINNIE, HAVE MADE SPEECHES. THE LEAVE TEAM IS CHARLIE, STEPHEN, BEAU, AND MINNIE AND ON THE STAY SIDE IS ALANNAH, HARRY, CLEM, STIRLING, AND IVY. AND THE STAY TEAM WON WITH PRIDE.

BEAU, STIRLING, AND MASON MADE POSTERS OF THEIR OPINION OF EARTH AND SPACE.

BUT FIRST YOU HAVE TO DECIDE HOW TO ADVENTURE SAFELY THROUGH SPACE...

Ivy

Wow it's already November!!!

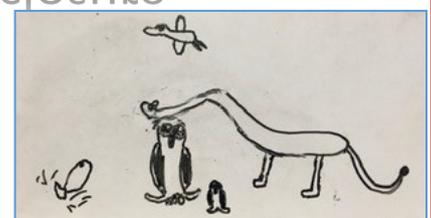

Time has been passing by like crazy!!! I remember when it was Easter and the river was 2 metres lower than it is now!! I mean Halloween was 3 days ago but... It's beginning to look alot like Christmas... wow!! It's already almost Remembrance Day too!!

Well, I mean Christmas is right around the corner so maybe some of you might have your jingle pants on!! I think we're all glad winters over but I hear the weather is only going to start slowing down in summer! I remember when I went to a waterpark just before covid started!! Before covid started I was 7... now I'm turning 11 in 4 months... wow... before you know it it's going to be 2040 and I'll be ancient!! (19) Time has been passing by like sonic!

Ivy the Time Traveller

The Zoo

The zoo helps people to learn about animals and to have fun with your friends and to learn about each animal and animals are friendly except don't go into the lion enclosure.

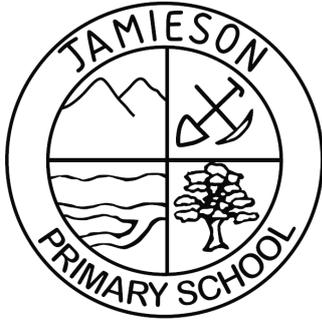

Beau

Resilience project

With Ms Hodge, we have been making posters about 4 emotions of our choice eg: happy, sad, angry, confused ect. We draw what we feel like when we are expressing these emotions.

Stephen made a poster that says emotions in rainbow bubble writing. Beau and Mason made big posters of themselves showing what they are good at.

Horse riding

this term which is the last term we will be
horse riding in Merrijig

BUT

psychological injury or

DEATH

might happen so we need your
permeation to risk your beloved child's
life.

We are doing it on a Monday the 14/11
and Monday 28/11

By Stephen

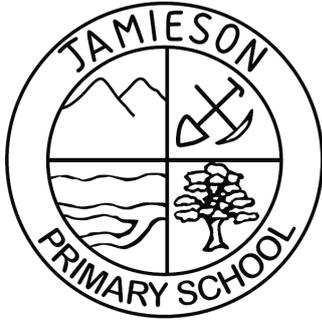

Gardening

By Harry

For gardening in the past weeks, we at Jamieson primary have planted many new plants like sunflower seeds which are going very well, we also planted mammoth sunflower seeds which can grow up to 9 feet tall, mangos, climbing beans and some lovely purple flowers.

Planting requires us to weed the spots for planting. It took so long for the ground to be fully weeded and in the end the garden was amazing.

Tree Cutters

For some reason some men came to cut trees we couldn't play in spots so we don't get squished

By Mason

* They were booked as part of our tree safety and bushfire prevention program and the kids were terrific about staying clear of the works, despite being very interested!

Difficulty: Tricky

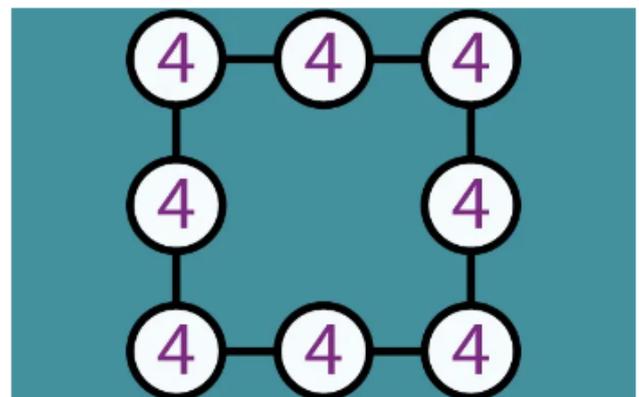

There are 32 soldiers guarding a square castle. The castle has 8 towers – one in each corner of the square, and one in the middle of each side. The soldiers want to make sure all the walls are guarded.

Initially, 4 soldiers went to each tower to stand guard. That way, along each side of the square there were 12 soldiers: 4 in the first corner, 4 in the middle tower and 4 in the other corner.

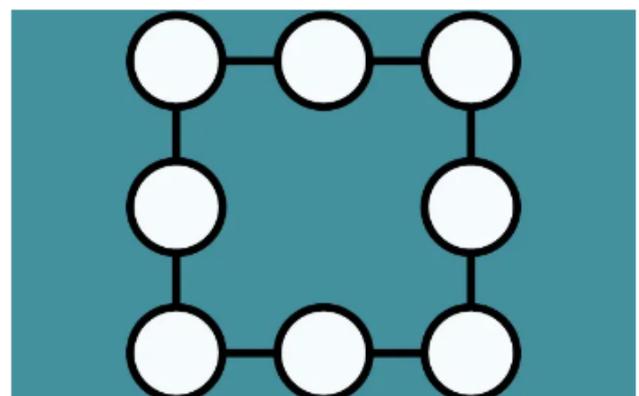

After a few days, the soldiers realised they had chores that needed doing. Their uniforms were starting to smell, their water flasks were almost empty, and someone really needed to empty the toilet buckets. One soldier from each tower got stuck with all the chores.

Meanwhile, the remaining 24 soldiers kept guarding. But now each side only had 9 guards along it. The soldiers were starting to get scared, until one soldier had a clever idea. They moved some soldiers around, then suddenly there were 12 soldiers along each edge of the square castle.

Can you work out how to arrange the 24 soldiers?

12 soldiers guard each wall

Can you guard the castle?
